CIRCULAR MODULAR CARPETS

Our exceptional carpets with geometric designs are made out of production failures of the 3 biggest carpet tile producers of the Netherlands: Interface, Tarkett (Desso) and Forbo. Studio Wae has partnered with these sustainable frontrunners to prolong the lifecycle of their waste.

The M.C. Escher-inspired designs allow you to create your own color, shape and size to make your carpet unique and a perfect fit for any space. Due to the unique fastening system the loose tiles simply click together so you can go crazy on your creation.

“ Create your own Wae”

✦ SOUND ABSORBING
✦ INSULATING

✦ ACOUSTIC
✦ MODULAR

✦ CUSTOM MADE
✦ SIZE ADJUSTABLE

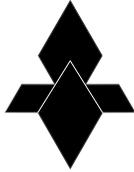

We want to make beautiful things from wa(e)ste.

SOCIAL IMPACT

Studio Wae makes design circular. By using product waste resources we extend the lifecycle of these resources. The production of Wae's complete collection is executed by people with limited job opportunities in our own workplace. Our mission is to employ as many Syrian residence permit holders as possible, offering them a solid base to build a future in the Netherlands. All production happens in Utrecht.

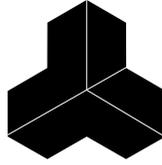

CIRCULAR CARPETS IN DIFFERENT DESIGNS

Our collaborations with different carpet tile producers each have their own special brand signature design. All brands come together under Cityscapes design.

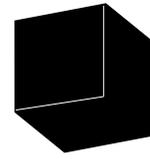

CITY

In collaboration with
Interface, Tarkett, Forbo.

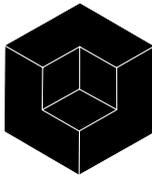

BOOMERANG

In collaboration
with Interface.

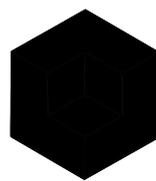

CUBE

In collaboration
with Tarkett (Desso).

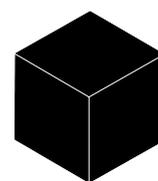

POLYGON

In collaboration with
Interface, Tarkett, Forbo.

DIM

In collaboration with
Interface, Tarkett, Forbo.

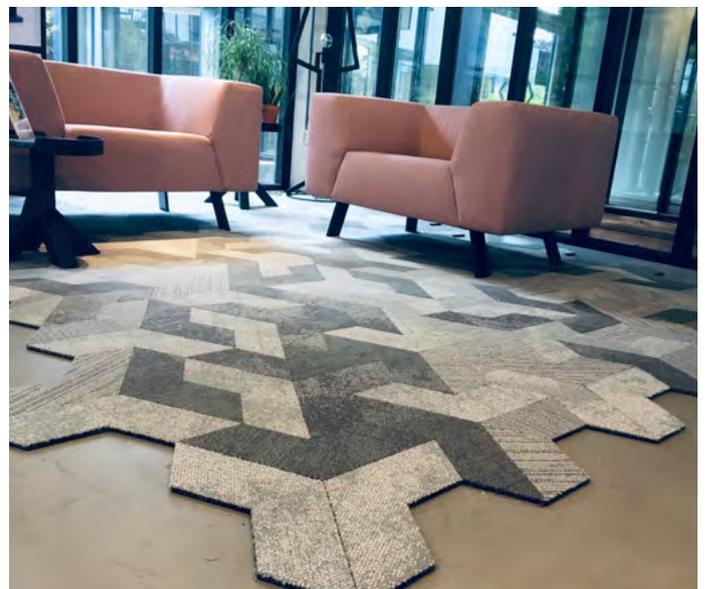

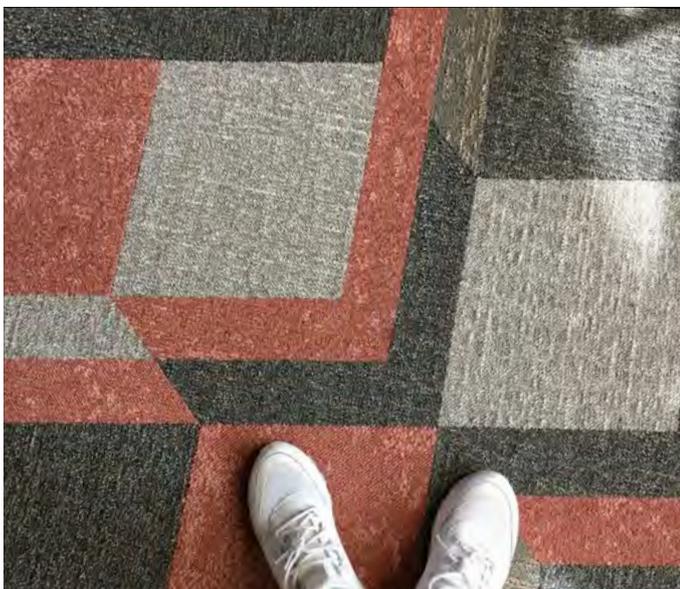

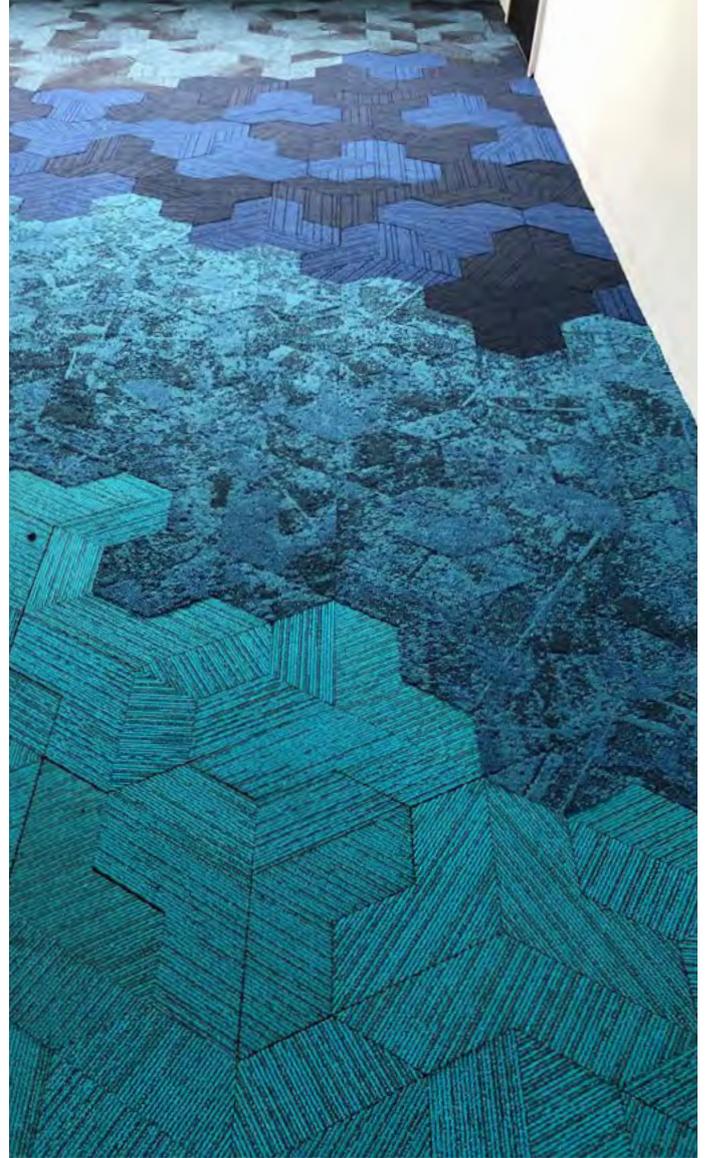

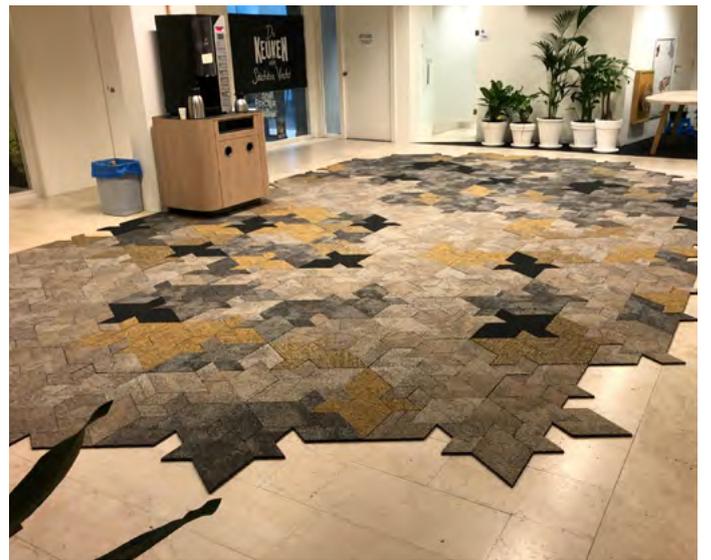

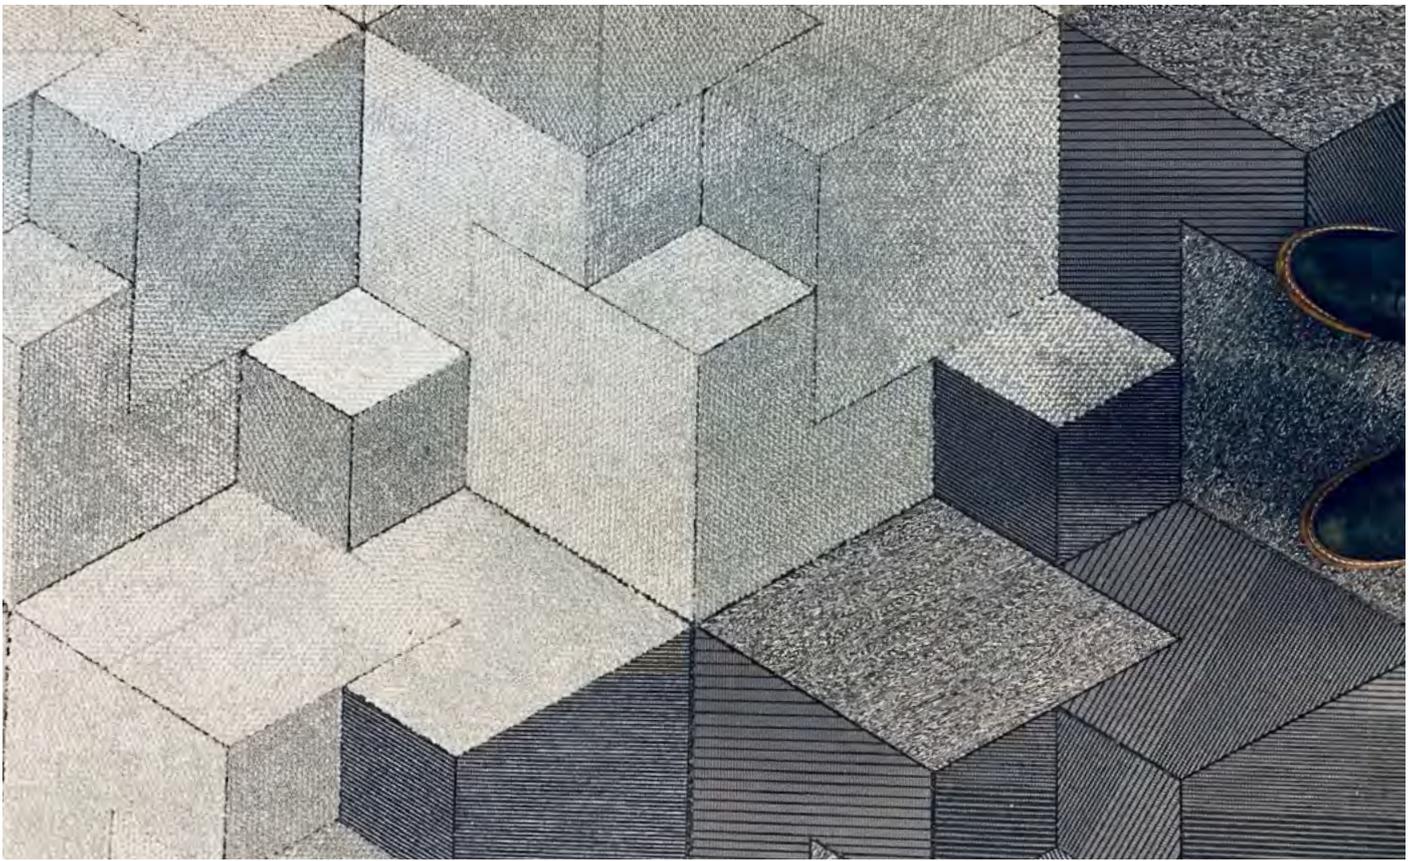

BEO

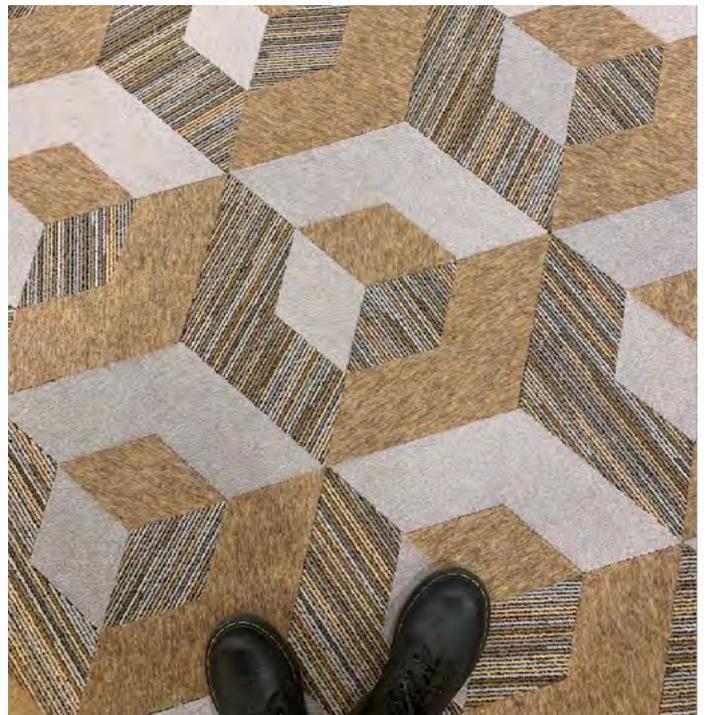

In collaboration with
Interface, Tarkett, Forbo.

The geometric design made from 100% waste material, allows you to create your own color palette, shape, size and make a perfect fit for any space.

DESIGN FLOORING WITH Co2 IMPACT

The circular flooring solutions of Studio Wae are manufactured from 100% production waste.

This means no new resources are used for our products which is great for both our Co2 footprint and our climate!

MODULAR CARPET TILES

For bigger surfaces Studio Wae produces modular carpet tiles and modular Marmoleum tiles in different designs.

The tiles are made of failures or overstock. To close the waste loop for our clients we can also create a new look and feel by combining used tiles with our own stock material.

BACK TO THE OFFICE COLLECTION

With our new Back to the Office collection you can create space and distance at the office in a new Wae.

BACK TO THE OFFICE SIGNING

Most signing solutions are quick, not circular and not for long term use. Studio Wae designed signing floor tiles that are made of the tiles from the existing project. The tiles will be removed and placed back within 2 days with signing or tekst. We can cut arrows, infographics or texts and fill these letters with contrasting colours by your choosing. We use our waste tiles from stock with over more than 80 colours. We only work with carpet tiles and cleaning mat tiles like the barricade.

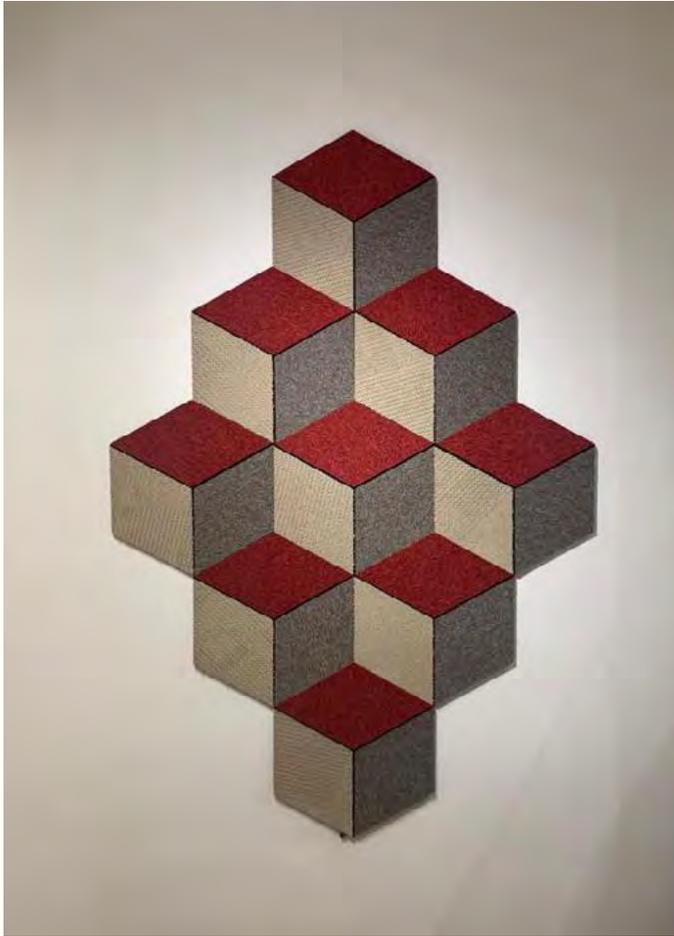

KEEP A WAE BETWEEN US

Our modular carpets are a long term beautiful solution to create your own space. As you can create your own size, you can decide what space you need around your desk. Your carpet is LAVA. Circular, Modular and awesome.

WALL TILES

Are you looking for a multifunctional modular awesome acoustic wall solution? Create your own shape, size and color at Studio Wae. The designs are the same as our carpets but made from acoustic waste material with more open lines to absorb sound. Use this design as a pinboard or just quietly enjoy it.

SMALL ACOUSTIC WALL TILES

100% wool with rubber waste backing, available from stock.

25 Pieces per m².

CUSTOM MADE

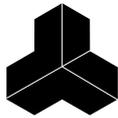

Architects and office decorators can share their color palette or choose colors from our vast physical stock. We will then produce the product for you. We have close collaborations with our dealers they can also provide you the perfect fit carpet proposal.

THIS IS THE WAE TO DO IT

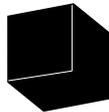

01 Choose your shape from our designs:

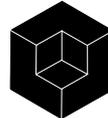

CITY

BOOMERANG

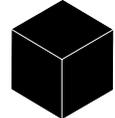

CUBE

POLYGON

DIM

BEO

02 Send us your moodboard of colors and we make you a color proposal.

03 Email us: tynke@studiowae.nl or call/whatsapp us: 0621205032.
You can also visit us to choose your own colors from our stock.
Measure the size you need in m².

04 Order the carpet at Studio Wae or our dealers.

05 After 4 weeks you receive your own custom made carpet.
You can puzzle your own size and shape in the office.

We can reserve the colors for you, once the order is placed.

Keep in mind that all our products are made from waste, therefore color and weaving mistakes will be visible in the carpets. This contributes to the unique look of your carpet.

Wae is always in for collaborations with other companies. Interested in partnering up? Or want to become a dealer? Get in touch. Wondering if Studio Wae delivers the Carpets in your area? We'd love to hear from you. Questions about orders, available colors or other products? Call or e-mail us.
