ABOUT STUDIO WAE

Studio Wae was founded in 2017 by Tynke van den Heuvel. She worked for 14 years in a recycling company for metal and electrical equipment. Here she learned how to create a valuable flow from waste and combined this with her geometric designs, inspired by M.C. Escher.

VISION

Studio Wae's vision is to make an impact on natural raw material extraction by turning residual flows into scalable and beautiful products. We believe it is important that everyone becomes aware that waste can have a positive value. For example, we make circular paving that is made of 76% recycled rubble (Urban Mining) and modular 100% circular rugs, made from production failures from large carpet tile producers.

CIRCULAR MODULAR CARPETS

Our exceptional carpets with geometric designs are made out of production failures of the 3 biggest carpet tile producers of the Netherlands: Interface, Tarkett (Desso) and Forbo. Studio Wae has partnered with these sustainable frontrunners to prolong the lifecycle of their waste.

The M.C. Escher-inspired designs allow you to create your own color, shape and size to make your carpet unique and a perfect fit for any space. Due to the unique fastening system the loose tiles simply click together so you can go crazy on your creation.

- ◆ SOUND ABSORBING
- ◆ INSULATING

- ◆ ACOUSTIC
- ◆ MODULAR

- ◆ CUSTOM MADE
- ◆ SIZE ADJUSTABLE

We want to make
beautiful things
from wa(e)ste.

SOCIAL IMPACT

Studio Wae makes design circular. By using product waste resources we extend the lifecycle of these resources. The production of Wae's complete collection is executed by people with limited job opportunities in our own workplace. Our mission is to employ as many Syrian residence permit holders as possible, offering them a solid base to build a future in the Netherlands. All production happens in Utrecht.

CIRCULAR CARPETS IN DIFFERENT DESIGNS

Our collaborations with different carpet tile producers each have their own special brand signature design. All brands come together under Cityscapes design.

CITY

In collaboration with
Interface, Tarkett, Forbo.

BOOMERANG

In collaboration
with Interface.

CUBE

In collaboration
with Tarkett (Desso).

POLYGON

In collaboration with
Interface, Tarkett, Forbo.

DIM

In collaboration with
Interface, Tarkett, Forbo.

BEO

In collaboration with
Interface, Tarkett, Forbo.

CUSTOM MADE

Architects and office decorators can share their color palette or choose colors from our vast physical stock. We will then produce the product for you. We have close collaborations with our dealers and therefore they can provide you with the perfect fit carpet proposal.

THIS IS THE WAE TO DO IT

01 Choose your shape from our designs

02 Send us your moodboard of colors and we make you a color proposal.
Or go to www.studiowae.nl > downloads, choose the shape you like the most, download the .dxf file of your shape and design your own carpet!

03 Email us: tynke@studiowae.nl or call/whatsapp us: 0621205032.
You can also visit us to choose your own colors from our stock.
Measure the size you need in m².

04 Order the carpet at Studio Wae or our dealers.

05 After 4 weeks you receive your own custom made carpet.
You can puzzle your own size and shape in the office.
If you need instructions for assembling your carpet, you can find the manuals on our website. Go to: www.studiowae.nl > Downloads.

! We can reserve the colors for you, once the order is placed.

! Keep in mind that all our products are made from waste, therefore color and weaving mistakes will be visible in the carpets. This contributes to the unique look of your carpet.

The geometric design made from 100% waste material, allows you to create your own color palette, shape, size and makes a perfect fit for any space.

TIVOLI VREDENBURG – CITY CARPET

CANTOR – BOOMERANG CARPET

GISPEN – CUBE CARPET

CREATE YOUR OWN CIRCULAR WAY

LUCHTVERKEERSLEIDING NL – POLYGON CARPETS

DM PROJECTEN – DIM CARPET

BANG & OLUFSEN STORE – BEO CARPET

DESIGN FLOORING WITH CO2 IMPACT

The circular flooring solutions of Studio Wae are manufactured from 100% production waste.

This means no new resources are used for our products which is great for both our Co2 footprint and our climate!

MODULAR CARPET TILES

For bigger surfaces Studio Wae produces modular carpet tiles in different designs. The tiles are made of failures or overstock. To close the waste loop for our clients we can also create a new look and feel by combining used tiles with our own stock material.

PHAROS (SHERRYL LEYSNER) – BOOMERANG FLOORING

UNIVERSITEIT UTRECHT – ANGULAR FLOORING

WALL TILES

Are you looking for a multifunctional modular awesome acoustic wall solution?

Create your own shape, size and color at Studio Wae. The designs are the same as our carpets but now made from acoustic and thicker material. The material we use for wall carpets also comes from production waste. We provide extra layering and open lines on the tiles to absorb sound. If you want an artistic wall design with benefits and impact, create your own wae on your wall!

ENTRANCE CARPETS

'You never get a second chance for a first impression'

And this first impression often starts at your front door. By designing a doormat (or dirt trapper) in one of our shapes, using the colors you pick, you can have your own circular, perfect size, modular doormat. It is even possible to turn your doormat into a full carpet. Our doormats are a beautiful example of the merging of function and form.

Our available shapes are:

Boomerang

Polygon

Beo

BACK TO THE OFFICE COLLECTION

With our new Back to the Office collection you can create space and distance at the office in a new Wae.

BACK TO THE OFFICE SIGNING

Most signing solutions are quick, not circular and not for long term use. Studio Wae designed signing floor tiles that are made of the tiles from the existing project. The tiles will be removed and placed back within 2 days with signing or tekst. We can cut arrows, infographics or texts and fill these letters with contrasting colours by your choice. We use our waste tiles from stock with over more than 80 colours. We only work with carpet tiles and entrance mat tiles.

KEEP A WAE BETWEEN US

Our modular carpets are a long term beautiful solution to create your own space.

As you can create your own size, you can decide what space you need around your desk.

Your carpet is LAVA, circular, modular and awesome.

Studio Wae is always in for collaborations with other companies. Interested in partnering up?
Or want to become a dealer? Get in touch. Wondering if we deliver the Carpets in your area?
We'd love to hear from you. Questions about orders, available colors or other products? Call or e-mail us.
